

Dear FCC,

You have the authority to do something about the horrendous misuse of the "news" by Sinclair Broadcasting Corporation in its showing of "Stolen Honor". If you don't do something about this outrageous injustice, the "news" in America will become simply a propaganda machine designed to suit the agendas of a few billionaire broadcast owners. It will undermine media honesty and democracy. We need you to stand up for fairness in this situation. Please don't do the "beaurocratic thing". Take the high road and make a stand against unethical companies manipulating the "rules" in order to influence our elections. I'm not scared of terrorists. But I am terrified of the loss of respect I, and the rest of the world, will feel toward American media after it is allowed to be so manipulated by a single greedy and unethical company. You can, and should, do something to stop this, or at least balance it!
